JOSEPH GILLOTT & SONS, LTD.

FOREWORD.

The VICTORIA WORKS, GRAHAM STREET, BIRMINGHAM, where the firm's renowned Pens are manufactured, have long been celebrated for their admirable adaptation in all essentials for producing goods, the reliability and perfect quality of which have caused them to be repeatedly designated by competent critics and experts the "Best in the World." These famous Works have been visited and the interesting processes of the manufacture inspected by Their Majesties King Edward and Queen Alexandra (when Prince and Princess of Wales) in the year 1874, and also at various times by many other Royal and distinguished personages.

JOSEPH GILLOTT'S PENS are manufactured from highest grade Sheffield Steel, rolled and cross rolled in our own factory, carefully ground, tempered to perfection and made in a variety sufficient to satisfy every individual taste. They have at all important International Exhibitions, from the first Great Exhibition of 1851 onwards, secured the Highest Awards including the only Award at Chicago in 1893, and the only "Grand Prix" exclusively awarded for Steel Pens at the Paris Exhibition of 1900.

Their reputation makes them easy to sell and our sales service helps the Stationer enormously.
